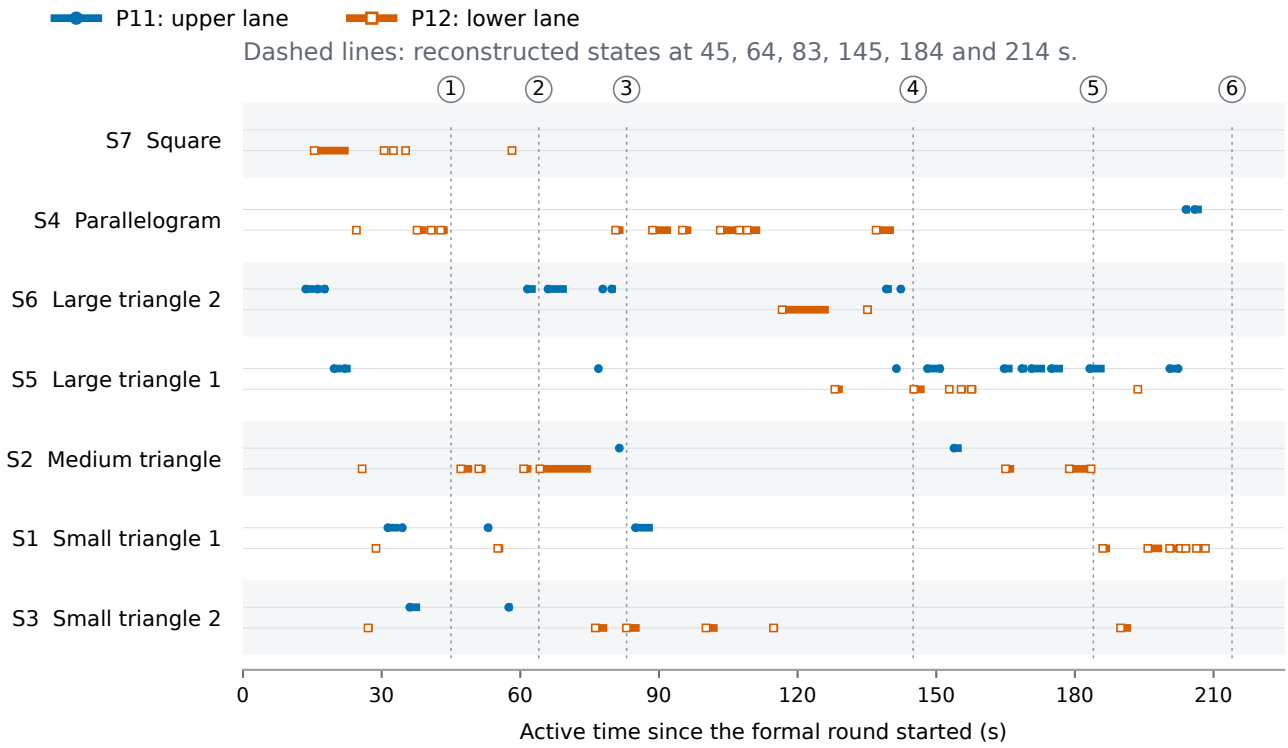
G06: local work becomes shared rebuilding

First-person VR · candle task · one dyad · all 79 accepted grab–release intervals



Early local work

P11 manipulates the large triangles; P12 places the square and parallelogram.

116.7–136.1 s

P12 also manipulates both large triangles as the body is reconfigured.

204.0–207.5 s

P11 manipulates the parallelogram previously handled by P12.

Bars: grab-to-release intervals; blank spans: no piece held.
