Source records
Researcher reports · video · VR logs
Identify the task record
Dyad + condition + software attempt
Practice, replay and restart kept distinct
Build a connected episode
Proposal / builder / modifier
Before → after → local outcome
Context
48 survey records
Interview comments
Check action and meaning
Video anchors and researcher account
Keep each source clock visible
Check actions and states
Accepted grab–release pairs
Latest piece poses · selected geometry
Compare connected cases
Within a dyad, then across dyads
Retain contrary cases and task differences
Write findings and interpretation
Distinguish observation, checked state and explanation
Retain source codes
